FROM WASHINGTON

OUR ERASMUS LETTER.

The First Proclamation.—Mr. Blake and Mr. Schenck.

Special Correspondence of the Cincinnati Gazette.

WASHINGTON, March 18.

A recent debate in the House, on the question of the appointment of the committee on the counting of the Presidential vote, has developed the fact that Mr. Blake, of Ohio, has published a long-buried proclamation of Mr. Lincoln, which was issued on the 15th of April, 1861, and which was the first proclamation issued by the President after the commencement of the rebellion. When the first shot of the Confederates was fired upon Fort Sumter, Mr. Lincoln was without any legal power to call out the militia without the consent of the Governors of the States, and he was without any power to call out the regular army except for the purpose of protecting the public property. Under the circumstances, he issued a proclamation calling out the militia of the States to the number of seventy-five thousand, and convening Congress in extra session to meet on the 4th of July. This proclamation was issued from Washington, and was addressed to the Governors of the States. Mr. Blake, who was then a member of the Ohio Senate, received a copy of the proclamation, and he has preserved it ever since. It is now published for the first time, and is as follows:

SATURDAY, MARCH 30, 1864.

THE CITY.

ON THE BAR.—The schooner A. Frederic, ashore on the bar outside the harbor, probably drawn there by the tug that had her in tow, remained for two hours, and was finally tugged off by the tug Little Giant.

PAY DAY.—The 8th and 15th Invalid Corps in Camp Douglas received their little wages from Uncle Sam yesterday and day before. Many of the men received from $200 to $300 each, back pay.

ROBBERY.—A lady named Illingsworth, residing at Oak Park, lost $900 in notes and $30 in cash and money, at the Illinois Central depot, yesterday afternoon. Her pocket was picked by some one of the rats who infest all places of public resort.

FOR THE FRONT.—About 800 Wisconsin regrets arrived in Chicago last evening about 8 o'clock, en route for the seat of war. They were collected from various parts of the State, and immediately started on their journey. The boys came here from Madison, and were taken from the Northwestern depot to the Soldiers' Rest, where a supper had been prepared by their friends, the ladies.

THE THIRD WARD AGOTHEN.—One of the battle grounds at the next election will be in the 3d Ward. Our friends fully understand this fact and are buckling on their armor for the contest. They will give a good account of themselves. Turn Hall, one of the best in the South Division, was last evening filled with loyal men, who listened to excellent speeches from Messrs. Bates, Storrs and others with evident satisfaction. We desire most to say that while will not be resigned, but we greatly admire the signs of the times if they do not portend a glorious Union victory in the 3d Ward.

CONGRESS'S INQUEST.—An inquest was held yesterday morning, before Justice Dibbl as acting Coroner, upon the body of officer J. C. Churchill, the circumstances of whose death have previously appeared in the TRIBUNE. The jury returned a verdict in accordance with the medical testimony adduced, to the effect that death resulted from erysipelas produced by inflammation, arising from the injured hand, but they considered that as the skilful was struck at the time of the assault, he was not, actuated by malicious motives. The funeral will leave the late residence of officer Churchwood, No. 97 Prairie street, at ten o'clock on Sunday, the police will attend in force and city soldiers are requested to be present.

ARREST.—Adolph Danziger, the proprietor of the cigar store which was destroyed by fire on Tuesday night last, on the corner of Randolph and Clark streets, was brought up yesterday afternoon before Justice Brown and Hoisington, charged with having set fire to his store, and being called for an examination, he asked for a continuance, which was granted, and the case will come up for hearing on Wednesday morning next, at 9 o'clock. Bonds were fixed at $1,500 for his appearance, his sureties being Henry Greenebaum, W. F. Dunkin and Philip Feig; the two principal witnesses, Louis Podlewaski and Julius Schneider were bound over in sureties of $1,000 each for their appearance. We forbear making any comments on this extraordinary case, until after the examination, but it will be well for many that the prosecution in the case stay strong and substantial evidence against the accused.

A COUPLE OF SHARPERS BROUGHT TO GRIEF.—On Tuesday last, the city of Freeport was graced by the presence of a repulsive, old-looking Irish couple, named Jeremiah Sullivan and Nancy Sullivan, the wife, who says what is called a "shebeen" shop in that locality, but to tell the truth, they don't keep it now. On the afternoon of that eventful day, Charles Maloney, a soldier of the 44th Illinois, went to the house of Sullivan's, and called at the bar-room, which was kept by Mrs. Sullivan, and asked for a drink, which was granted, and the case will come up for hearing on Wednesday morning next, at 9 o'clock. Bonds were fixed at $1,000 for his appearance, his sureties being Henry Greenebaum, W. F. Dunkin and Philip Feig; the two principal witnesses, Louis Podlewaski and Julius Schneider were bound over in sureties of $1,000 each for their appearance. MUSICAL MATTERS.—W. W. KIMBALL—We have no affection for ancient things. Old books old manuscripts, old music, are highly prize. In one of the older towns of Massachusetts, on the banks of the beautiful Connecticut, and under the shadow of wide-spreading elms, is the academy, where, in years long gone, were instilled little shuddering notions of education. We remember ten pianos perched high upon the platform in the recitation room, where, every morning, a red checked girl played plump strains, which, to our unaccustomed ears, appeared the richest and rarest melody. That maiden was wooed and won by a Chicago lawyer, and is now the happy mother of an interesting family, while the instrument whose fairy hammers they set to a scribbler for the TRIBUNE. How time flies, to be sure!

We remember that piano, with "Hallett, Davis & Co." heavily gilded upon the rest, just over the bank or snowy keys, which we then thought a wonderful piece of mechanism. That same "Hallett, Davis & Co." has attended us all along our journey to the present. In whatever city we have made our abiding place, we have always found our old friends in the splendid specimens of the pianos. Is it wonderful then that when we set up our household gods we gave the choicest place to "Hallett, Davis & Co.,"?

There is a house in Chicago, one of the pioneers in the music trade, which makes the sale of these beautiful instruments a specialty. We refer to the house of W. W. Kimball, 120 Lake street. Chicago is made of the far enterprise and extent of her jobbing trade. There are many dealers here who have a business with many an eastern house, whose connection, reputation, would be glad to equal; and among these none consequently stands the establishment of Mr. Kimball. The pianos of twelve of the leading manufacturers are now stowed away in the capacious ware-rooms, and from these, such is the variety that the purchaser must be hard indeed to suit, if by means of the wide-awake assistant which is style, touch, quality, volume and price will not meet all his requirements. We have indicated our partiality for "Hallett, Davis & Co.," and here can be found all the sizes and styles mended scheme with all of the modern attachments and improvements. Among the latter we see the patent suspension bridge, giving equality of tone throughout, into all the octaves, the patent wrest plank, and the agraffe, which secures fifth. Another of the pianos firmly by the piano and does away with the possibility of warping and displacement. It is suggestive in this connection that all the great artists have given the "Hallett, Davis & Co." pianos their highest commendation; and not less than thirty grand medals have been awarded by as many State Fairs, for its excellence and remarkable qualities.

This notice is upon us so unconscionable length, but we cannot forbear reference to the collection of New American Organs, which form a distinguished feature at Mr. Kimball's. These organs combine the instrumental, and in regard to finish, power, sweetness and mellowness of tone, and variety of stops, exhibit a combination of qualities which have never before been found in one instrument. The new application of the swell and tremolo attachment is unique and perfect, and the effect produced by a class of celestial stops is indescribably grand and delightful. These organs should attract the fastidious lover of music, and people in the country who have a keen appreciation of excellence ..... assured that whatever here ..... warrant may be relied upon, ... no fifty dollar instrument made to wear pace with the demand. The works will have to be enlarged, and an additional number of workmen employed. We are glad then to chronicle the success of this experiment.

YOUNG MEN'S ASSOCIATION.

The Contest at an End—Withdrawal of the Opposition and Independent Tickets.

The gold contest which has agitated the minds of the members of the Young Men's Association, and relatively the public, has come to a premature close. The opposition and regular tickets have withdrawn, the latter of the former was published in the TRIBUNE of yesterday, that of the latter follows:

To the Members of the Young Men's Association:

The undersigned, nominated as candidates for places on the Young Men's Association of Chicago respectfully decline the honor conferred upon them, and request those in other cities, present at the caucus of the regular members of the body a hope that by this action this year they would result in bringing about purchase and sale of the property of the Association at last, or a building suitable for the Association, and in accordance to the city. A "regular" ticket and candidates proposed to pay in October to provide means to do this; that every reasonable man must see the necessity of this action, and to assist in every manner in their power, and will only be a desire to see the interests of the Association, the city and a united ticket, and of none other. We will give a more definite statement of a definite plan of action before the meeting of the Board of Directors of this day nominated on that the desire to obtain the services of a competent lecturer for the winter season.

The above withdrawal made evident what was well aware that our situation, our means, and our present duties towards Poland are a great deal more important than mere party strife, still we are quite convinced that you will not misunderstand our motives, but by the feelings which animate us in offering.

May every nation enjoy liberty and be delivered from all despotic governments, and as slavery ..... of the nations have withdrawn from the Union ..... will not be resolved, but we greatly admire the signs of the times if they do not portend a glorious Union victory in the 84 ward.

MEETING OF THE POLICE BOARD.—The Board of Police met yesterday afternoon, but adjourned last evening, in consequence of the non-attendance of witnesses on the charges against Capt. Tuttle and Officer Chappel, of the Second Precinct, for violently beating a prisoner and having his friends arrested for interference, without cause.

The Board dismissed the charges against Captain Tuttle, and the latter night's report included officer Chappel, who advised him to call for help when resisted and use no violent means unless no aid were at hand.

LOCAL MATTERS.

Twelfth Ward—No Meeting—The meeting, for Saturday evening at the corner of Lock Streeter, having been improperly called, and not authority, has been abandoned; and the Union Republicans of the ward will meet at such time and place as may be hereafter fixed by the City Central Committee, for the nomination of a candidate for Aldermen.

Thirteenth Ward—Union non attention A meeting of Union citizens of the 13th Ward will be held this evening at Kimbel's old place on North Wells street, near North avenue. Be on hand.

Property for Sale.—We call the attention of those who want to purchase building lots on the West Side, to the advertisement of Messrs. Laflin, to be found in another column. These gentlemen have sold off the most valuable of their very desirable property, situated on West Monroe, Madison, Adams, Jackson, and Van Buren streets, which they offer in bayou on the most favorable terms. This property is situated near Union Park, now one of the most fashionable quarters of the city, and one that is rapidly improving. It is accessible by the horse cars every five minutes during the day.
